Lucas

THE VILLAS AT LONGLEAF PARK, A WATERSOUND ORIGINS® COMMUNITY

430 B Suwannee Drive, Inlet Beach, FL 32461

1 Bed | 2.0 Baths | 1,418 ft² | 1.0 Story

$509,172

The Lucas home design by Fischer Homes offers a welcoming paired-villa layout that blends open-concept living with practical room placement. Designed on a single level with 10-foot ceilings throughout the main living areas, the interior feels bright and connected. This thoughtfully arranged space includes 2–3 bedrooms and 2–2.5 baths within a comfortable range of 1,491–1,559 square feet. The design not only creates a backdrop for everyday routines but also supports entertaining and relaxed living, all within a convenient single-story layout.

At its heart, the Lucas features a functional kitchen that flows seamlessly into the family room — ideal for everyday use and social gatherings. A centralized walk-in pantry enhances organization, while optional features like upgraded cabinetry or appliance placements allow customization to suit your lifestyle. A covered patio extends outdoor living space, providing a natural extension of the home's shared zones. The owner's suite includes a well-appointed bath and generous closet space, and plan options allow for the addition of a third bedroom or private study to support evolving needs.
